LEBANESE CUISINE

HABIB BEIRUT

Habib Beirut was an old man who produced his style of traditional Lebanese home pickles and dairy goods from his home. Everyone used to say they are visiting Habib's house to get real traditional Lebanese food. News of the quality and freshness spread and restaurants started buying his produce. Before long, Habib and his wife were producing everything from cold Mezza, Shanklish and Hummus on top of their famous homemade kibbeh and Lebanese pastries. His 40 years' experience made him a custodian of traditional flavors and cuisine. Visitors all over Lebanon came to buy and to enjoy the traditional dining experience provided. It's why we decided to develop Habib's Beirut in Dubai, seeking to the ambassador for Habib's kitchen; from Lebanon to the world. We visited Habib's house, and we learned the exclusive recipes that made for all the food, and we especially learned how to provide love for each item. We learned how to give a smile to everyone visiting Habib's house the experience that used to deliver and the way they treat the products and the simplicity that makes the big difference. We have preserved the 40 years' experience developing recipes and want to distribute his knowledge to the world.
